

# STEAMtastic!

Science Technology Engineering Art Mathematics

STEAMTASTIC Club will focus on **STEAM** (Science, Technology, Engineering, Art, and Mathematics) and it's for children in **K-5th** grade. During this monthly one-hour program, children will listen to a story and participate in hands-on activities that relate to these fields. - All programs are bilingual (English/Spanish)

## January - The Five Senses / Los Cinco Sentidos

Wednesday, January 27 - 3:30 p.m. - Room 2

Hands-on activities that will get kids thinking about how they see, taste, touch, hear, and smell!

## February- Toys you can make! / Juguetes que tu puedes hacer!

Thursday, February 18 - 3:30 p.m. - Room 2

Kids will get to explore simple and fun inventions that use aerodynamics, engineering, and more.

## March- Magical Universe / Universo Mágico

Saturday, March 12 - (Time TBA)

A presenter will bring a Portable planetarium!

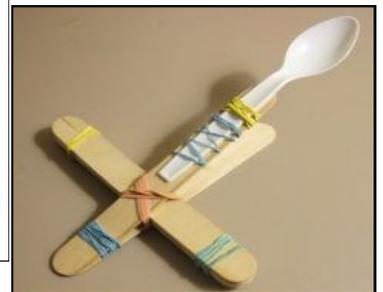

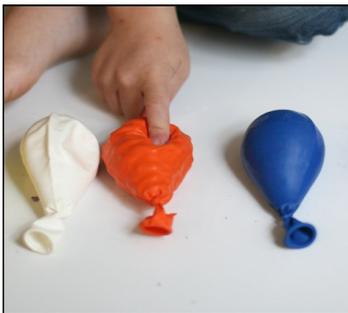

Wednesday, March 16 - 3:30 p.m. - Room 2

We'll talk about the moon phases, and the different constellations.

## April - E is for Electricity / E es para Electricidad

Wednesday, April 20 - 3:30 p.m. - Room 2

Lots of fun with wires, circuits, batteries, etc.!
