See below and I would suggest discussion of roadway enhancements such as additional signage to increase motorist and pedestrian safety.

We should also ensure that PSE&G does LED bulbs in the area and the developer considers significant lighting on the property.

Subject: Recommendations for 1052 East 2nd Street plan

Sir,

Sir, my following recommendations for this proposed mixed use, commercial/residential building, at 1052 East 2nd Street are the following. I recommend lighting and a camera system that captures video surveillance of the building on all sides, as well as east and west down the sidewalk of East 2nd Street.. Cameras that face the parking lot. Police to have access to the cameras in case of an emergency. Signage indicating that the building is under video surveillance. Also to have "No Loitering" signs posted.

As for pedestrian safety, all crosswalks painted at the intersection of East 2nd Street and Netherwood Avenue. Have pedestrian crossing signs and markings in the roadway indicating same.
